

Slips, Trips, & Falls

TAKE AWAYS

If you remember nothing else from this training, at least remember the following:

1. Most slips, trips, and falls are preventable. Staying safe starts by focusing and following safe workpractices.
2. Hazards are present throughout the workplace. Observe your area and report any hazards you identify.
3. Ignoring hazards in the workplace is risky behavior and you should not enage in risky behavior.

TEST

Let's test your knowledge to see if you spot the slip, trip, and fall hazards?

Name: _____ Site: _____

Date: _____
